Dixon, IL – The Illinois Department of Transportation announces today that weather permitting, construction work on IL 40 at the south edge of Rock Falls will begin on Monday, March 21, 2016. Martin & Company Excavating will be starting work to reconstruct the second half of the bridge over the Hennepin Canal north of I-88.

The northbound two lanes of the structure were replaced during the 2015 construction season. The median and two southbound lanes will be replaced this summer.

Traffic will be restricted to one lane in each direction. The \$5.2 million project is scheduled to be completed by mid-September. Drivers should be alert for the lane closures and reduce speed when traveling through the area.

Please slow down and use extreme caution while driving through all work zones.
